

Asian Americans in Energy, the Environment and Commerce

Asian Americans in Energy, the Environment and Commerce (AE²C) is a 501 (C) (3) non-profit connecting Asian Americans and like-minded professionals in the energy, environment and commerce sectors globally.

Our Vision

AE²C aspires to be the premier platform for Asian Americans who seek to exchange ideas, advance professionally and foster long-term relationships to grow opportunities here in the U.S. globally. We seek to develop and leverage the talents of Asian Americans whose diverse experience bridge the cultures, values and business practices of Asia and the United States.

Our Mission

- Bring perspectives that stimulate growth, diversity and professional development for individuals and businesses
- Foster education and networking opportunities for executives, professionals and future leaders
- Provide a forum for information exchange and dialogue

Member Benefits

- Access to senior business and government personnel providing opportunities for professional growth and development.
- Networking opportunities with a diverse group of individuals and corporations who are active in both the United States and Asia.
- Mentoring and career development opportunities for students and emerging professionals, as well as entrepreneurs and executives.
- Information access and exchange via members-only newsletters, website and events.
- Promotes workforce and supplier diversity by connecting members with interested companies and organizations.
